ITEM 8.01 OTHER EVENTS

Filing of Form 10-K

We are unable to file our Annual Report on Form 10-K for the year ended December 31, 2019 on the due date because of the impact of the COVID-19 pandemic, which, among other things, due to travel limitations and the requirements of “social distancing,” has adversely impacted and continues to adversely impact our ability to complete our filing on a timely basis. We have a small accounting staff and historically have provided our auditors with full access to work papers and related information. Because audit personnel are now working remotely the Company’s ability to complete its audit and file the 2019 10-K by its due date is delayed. We have also been informed by our edgarization agent that it is now experiencing staffing problems and will require additional time to provide their services.

Accordingly, we are relying upon the order issued by the Securities and Exchange Commission on March 25, 2020 pursuant to Section 36 (Release No. 34-88465) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), extending the time (the “Extended Extension Period”) in which certain reports required to be filed pursuant to the Exchange Act are filed, and we are furnishing this Form 8-K as required pursuant to such order. We expect to file our Annual Report by the end of the Extended Extension Period, if not earlier.

In light of the current COVID-19 pandemic, we will be including the following Risk Factor in our 2019 10-K, as may be updated to reflect subsequent events impacting our company:

Our business and results of operations may be negatively impacted by the spread of the Coronavirus.

We sell our products in the China and may be impacted by public health crises beyond our control. This could disrupt our operations and negatively impact sales of our products. Our customers and suppliers may experience similar disruption. In December 2019, a novel strain of the Coronavirus was reported to have surfaced in Wuhan, China, which has evolved into a pandemic. This situation and preventative or protective actions that governments have taken to counter the effects of the pandemic have resulted in a period of business disruption, including delays in shipments of products and raw materials. The Coronavirus has spread to over 100 countries, including the United States, and efforts to contain the spread of the Coronavirus have intensified. To the extent the impact of the Coronavirus continues or worsens, the demand for our products may be negatively impacted. The Coronavirus has also impacted our sales efforts as our ability to make sales calls is constrained.
